GitHub: github.com/Puttameher

Email: meherpra5@gmail.com

Mobile: [+91-6304276594](tel:+91-6304276594)

SKILLS

Languages:	C++, Python, C, Java, DBMS, Java Script
Tools/Platforms:	Jupyter Notebook, VS code, Power BI, Git & GitHub
Machine Learning:	Supervised learning, Unsupervised Learning, Model Evaluation, Classification and Regression
Soft Skills:	Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Lifestyle & Wellness Intelligence System Html, CSS, ML Stack ,ML Models GitHub	Sep' 25 - Oct' 25
- Built an end-to-end ML-powered web app that predicts health risk levels and wellness scores from lifestyle using Logistic Regression, KNN, Naive Bayes, Random Forest, and Linear Regression. - Designed rich visual analytics including feature correlation heatmaps, model accuracy comparison charts, stress-sleep and BMI-risk relationships, and interactive gauges for real-time prediction. - Delivered an interactive, app-like interface that provides explainable predictions, personalized wellness insights, and actionable lifestyle recommendations to support better long-term health decisions.	
AI Coding Mentor Html, CSS, JavaScript, Python, Google API GitHub	Apr' 25-May' 25
- Developed an AI-powered coding assistant that provides real-time feedback, contextual explanations, and personalized learning support for beginners to advanced learners, addressing gaps like inconsistent guidance. - Implemented a full-stack system using HTML, CSS, JavaScript (frontend), integrated AI-based explanation modules, dark mode UI, dynamic quiz generation, PDF export features, and multi-language support - Delivered an interactive learning platform featuring instant debugging, step-by-step tutorial generation, and quiz	
Secure System Call Interface Html, CSS, JavaScript, Python GitHub	Feb' 25 - Mar' 25
- Developed a secure system-call execution interface using Python & Flask with JWT authentication, preventing unauthorized access and enhancing OS-level security - Implemented role-based access control (RBAC), MFA-ready authentication, and detailed logging enabling tracked, auditable system call operations for admins - Built a user-friendly web interface (HTML, CSS, JS) to safely execute controlled system commands featuring real-time log monitoring and restricted command execution	

TRAINING

Machine Learning with Data Science	Jun' 25 – Jul' 25
Cipher Schools (Edtech Company)	
- Completed an intensive 70-hour summer training program in Machine Learning & Data Science at Cipher Schools. - Gained hands-on experience in data analysis, preprocessing, and exploratory data techniques - Built and evaluated machine learning models through practical, real-world applications	

CERTIFICATES

A Guide to Machine Learning with Data Science Cipher Schools	Jan' 25
Deep Learning NPTEL	Apr' 25
Data Structure and Algorithms Neocolab	Jul' 24
Legacy Responsive Web Design freeCodeCamp	Oct' 23

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 23 – Present
Computer Science and Engineering; CGPA: 8.07	
Gamyam College	Mamidada, Andhra Pradesh
Intermediate	Mar' 21 – May' 23
Percentage: 93%	
Gamyam E-medium School	Mamidada, Andhra Pradesh
Matriculation	Mar' 19 – May' 20
Percentage: 98.0%
